

## Economic Benchtop Shaking Incubators LABY

ZWY-103D ZWY-100H ZWY-240

## **Description:**

The benchtop orbital shaking incubators provided by LABWIT offer for small to medium capacity conditions of time, temperature and orbital agitation for the growth of biological organisms. These microprocessor controlled shakers have a number of advanced features that are really unique in bench top models, such as cooling capacity, stepless shaking diameter adjustment.

LABWIT shaking incubators are lab workhorses and provide "set and forget" programmable operating conditions and precise temperature performance for a variety of molecular biology techniques. The inner chamber is clearly visible from all angles across the room. The audible and visual alarms will alert the operator for set point deviations. The refrigerated models use CFC-free refrigerant, ozone layer friendly.

## **Features:**

- Various chamber sizes available from 34L, 63L to 69L
- Smooth and easy to clean design with tempered observation glass window.
- Inner chamber and tray from electro polished stainless steel.
- Special low noise induction motor system enables high rotation speed up to 400rpm or 600rpm, with control accuracy ± 1rpm.
- Patented driver system allows stroke continuous adjustment from 1 to 50 mm.
- The combination of high speed and small diameter make ZWY-103D, ZWY-100D & ZWY-200D suitable for many applications involving microtitre plates.
- AC inductive motor, brushless and maintenance free.
- Auto-defrosting system, ensuring long-terms non-frosting operation with low temperature setpoints.
- microprocessor-controlled digital display of the chamber temperature with a temperature resolution of 0.1°C
- Password protection against unauthorized change of parameters.
- Mutable audible and visual alarms against temperature and speed deviations.
- Soft start and smooth acceleration after lid opening.
- Timer up to 9999 mins and continuous mode.
- Predrilled standard tray included, without clamps
